

FOOD SAFETY POLICY

The management of GIL FAMILY ESTATES, S.L. HQS decided to commit to implementing a **"Food Safety Policy"** aimed at the company development, the production, the legal and hygienically safe product marketing and the customer satisfaction.

In pursuit of these purposes, the company shall focus on the objectives described below:

- To associate the corporate image to high food quality and safety standards.
- To ensure compliance with legal and regulatory requirements on food safety of manufactured and traded goods. And also, to assure the compliance with food safety requirements agreed with the customers.
- To identify client's needs and expectations in order to achieve their satisfaction.
- To constantly defend the culture of food quality and safety.
- To involve all staff in a continuous improvement by promoting the worker's empowerment and responsibility by means of an appropriate training adapted to their positions, and by ensuring food safety skills.
- To assure effective communications channels with all concerned.
- To engage with the continuous improvement of food safety management system, and also to improve the internal organization and the level of productive efficiency.
- To ensure the environmental protection by respecting the natural environment where the professional activity is pursued.
- To assure the pollution prevention and sustainability of the available resources.

In order to guarantee compliance with the purposes of this policy, the Company Management is committed to annually setting specific and measurable objectives so as to guarantee the food safety and quality of the traded goods.
